MEMORANDUM DECISION

Exchange Application Number E3287 (35-9823), in the names of William I. and Carolyn H. Morrell, was filed on June 2, 1994, to exchange 1.0 acre-feet of water as evidenced by U.S. Bureau of Reclamation and Contract with Weber Basin Water Conservancy District under Water Right Number 35-7398 (A10990) Weber River Decree. The 1.0 acre-feet of water is to be released into the Ogden River and, in lieu thereof, 1.0 acre-feet of water will be diverted from a six inch well, 100 feet to 400 feet deep, located South 1100 feet and East 450 feet from the N $\frac{1}{4}$ Corner of Section 29, T7N, R3E, SLB&M, and used for the domestic purposes of two families.

The application was advertised in The Ogden Standard-Examiner from June 23, 1994, to July 7, 1994, and was not protested.

It appears that this exchange can be made provided certain precautions are observed.

It is, therefore, **ORDERED** and Exchange Application Number E3287 (35-9823) is hereby **APPROVED** subject to prior rights and the following conditions:

- 1) The basis for this exchange right is a contract between the applicants and Weber Basin Water Conservancy District. This contract must be maintained for this exchange to remain valid. No water may be withdrawn from the well if a contract is not in effect.
- 2) Total diversion under this exchange application for all uses applied for is limited to 1.0 acre-feet of water per year. These uses are limited to the domestic needs of two families. For the purpose of regulating this exchange, the applicants shall install a permanent totalizing meter to measure withdrawals from the well, which meter shall be available for inspection by the commissioner of the Weber River at any reasonable time.
- 3) The water being exchanged shall be released from Causey Reservoir into the Ogden River as called for by the river commissioner.
- 4) Under the authority of Section 73-3-20 of the Utah Code, the applicant is required to submit a proof diversion and beneficial use of water upon 60 days notification by the State Engineer. The proof shall be in the same form and contain the same elements as required for appropriation or permanent change of water under Section 73-3-16 of the Utah Code Annotated.
